

Medical Deferral Policy Statement

Members may submit a written request for a medical deferral of their membership if a medical condition prevents them from playing golf. Members may be required to submit a confirmation from their doctor.

Once approved, members will receive a credit of current dues paid which will be applied to the following year's membership dues as outlined in the following qualifying periods:

Members who for medical reason cannot play as of June 1st will receive a credit of 75% of their dues, providing 100% of dues have been paid.

Members who for medical reason cannot play as of July 1st will receive a credit of 60% of their dues, providing 100% of dues have been paid.

Members who for medical reason cannot play as of August 1st will receive a credit of 50% of their dues, providing 100% of dues have been paid.

There will be no refunds. Credits only will be issued. No further credits will be issued after the August 1st qualifying period.

All requests must be received in writing within 2 weeks of the qualifying periods.

Members on payment plans will be required to continue to make all payments as required under the annual installment plan. Credits as per the above schedule will be applied to following year's membership dues. Members on payment plans who stop payment of their post dated cheques will not be approved for a medical deferral and will no longer be members in good standing.

Credits for optional items, including but not limited to, power cart leases, locker rentals and club storage, will be applied according to the above schedule and will be applied to the following year's fees. Member owned power cart leases, including storage, will not be credited.

Members who are granted medical deferrals will be retained on the active membership list and will continue to receive normal club communications and notices.

Medical deferrals are granted for one year.

Members on medical deferral have no voting privileges.

Members, whose medical condition improves to allow them to resume golf during the deferred season, may re-instate their membership. The credit will be applied to the current year with no further discount. Members can elect to purchase green fees rather than re-instate their membership and their credit will continue to be applied to the following year.
