

Power Cart Policy Statement

Carts are to be kept on cart paths on all Par 3 holes and on hole #12. In addition, cart usage may be limited to 90 degrees or to cart path only as weather and course conditions indicate.

Carts must return to cart paths where signage indicates on the fairways on all Par 4 and Par 5 holes. Carts are not permitted inside these signs.

Carts are not permitted to run in the roughs inside the "no carts" limits.

Carts are not permitted on the grass on the green and tee surrounds.

Carts must be kept off of all mounds. These areas tend to be very dry and are most susceptible to turf damage.

Please observe the "naturalized area" signage and keep carts out of the rescued roughs. Some exceptions to the above are noted in the Blue Flag Policy

The use of power carts is based on availability. Power carts can be reserved when tee times are made.

At no time shall a power cart be occupied by more than two golfers and two sets of golf clubs. Only persons 18 years of age or older and who hold a valid driver's license may operate a power cart.

All members and guest players must advise the Pro Shop of their intent to use a power cart and pay the appropriate fee prior to teeing off. Members are not permitted to ride with others for any part of the round unless they have paid the applicable fee. Members riding without payment may be subject to the loss of playing privileges. Members who allow non-paying riders may be subject to loss of cart rental privileges.

Picton Golf & Country Club reserves the right to revoke the use, or lease agreement, of a power cart if misuse or negligence occurs.
